

OPT Process: What to Expect

The basic OPT application process consists of a DSO recommendation in SEVIS, the production of a new Form I-20, the student's filing of Form I-765 **online** with USCIS (with fee, the OPT I-20, and other supporting documentation), and receiving an Employment Authorization Document (EAD) from USCIS. Here is how SEVP maps the process:

Application Dates & Deadlines

Students can apply for Post-Completion OPT as early as 90 days before their graduation date and up to 60 days after their graduation date. It will take approximately 60 days for USCIS to process an OPT application and issue an EAD card (Employment Authorization Document); therefore, it is important to apply early.

Earliest date USCIS will accept an OPT applications for students graduating in Summer 2024:

- **May 4, 2024**

Latest date USCIS will accept an OPT applications for students graduating in Summer 2024:

- **October 1, 2024**

Applying Too Early/Too Late: If a student submits a Post-Completion OPT application and it is received and accepted by USCIS too late or too early, USCIS will deny the application.

Choosing a begin date for OPT Post-Completion

Students can request the begin date for their Post-Completion OPT. Please note that this is a request, USCIS may choose a date that is earlier or later than the date requested.

The earliest start date a student can request for their OPT to begin is the day of graduation. The latest start date a student can request is 60 days after graduation.

Example: A student who graduates on August 2, 2024, can choose a start date as early as August 2, 2024, and as late as October 1, 2024 (around 60 days after the date of graduation).

Understanding OPT Post-Completion

Optional Practical Training (OPT) gives F-1 students completing an undergraduate or graduate degree in the U.S. an opportunity to gain employment experience in their field of study. OPT authorization allows students to accept paid off-campus employment directly related to their field of student for a period of 12 months. Some important points to note:

- Students are granted one 12-month period per degree level. One at the bachelor's level, one at the master's level and one at the doctoral level. (Example: someone who obtains two master's degrees will only be given one period of OPT post-completion for their degree).

Eligibility requirements for OPT Post-Completion

- Must be in valid F-1 status at the time of application.
- Have not used more than 12 months of full-time CPT at the current degree level.
- Must have been registered full-time throughout their program unless it is the student's graduating semester.
- Must be completing a course of study at the end of the term for which they are applying. Graduate students can apply the semester in which they will complete all coursework required for their program, excluding thesis/dissertation.

OPT Regulations

Unemployment: Once a student's post-completion OPT is approved and the EAD card is received, a student cannot exceed a total of 90 days of unemployment from the OPT begin date listed on the EAD card.

Employment Must be Related to Field of Study & Must be Appropriate to Degree Level:

SEVP advises that students on OPT maintain evidence, for each job, of the position held, proof of the duration of that position, the job title, contact information for your direct supervisor and a description of the work.

It is strongly advised to obtain a signed letter from your hiring official which explains how your degree is related to the work you are performing.

Part-Time or Full-Time Employment Allowed:

- Part-Time: 20 hours or more per week
- Full-Time: 21 hours or more per week

Cannot Begin Employment Until EAD Card is Received:

Students cannot begin work until they receive their EAD card and not until the begin date listed on the EAD card.
